REVIEWS	WHAT ABOUT
A- I waited three weeks for my speakers to be delivered and when they arrived, I realised that two of the connector cables were missing. When I called the company, I could only talk to a recorded message that told me to try again later. I certainly wouldn't recommend this company to anyone!	
B- I am very disappointed. I bought this album thinking that it would be something original, but all the tracks are versions of their previous songs. Nothing new! I suppose they have run out of ideas!	
C- I bought these speakers online and was extremely happy with the service. They were delivered by a nice talkative courier a week after placing the order and the instruction manual was very clear, so I was able to install them without problems. The only difficulty I had was solved with a quick phone call to the suppliers.	
D- Don't think that you get good value here! The bags were advertised as Gucci originals, but I suppose that, for the price, I should have realised. After two weeks a hole appeared in one corner and the zip has broken.	
E-Wow! The best album yet from this great band! Don't miss the version of Look Out, which combines the original tune with a reggae rhythm, and the powerful lyrics with a message to all teenagers.	
F- My sister was delighted with the bag I ordered from your website. It's strong and elegant. I think I'll buy one for myself. A great present for a woman who wants to be in fashion – a must for Christmas
